Here's some more info and tips to do with the Pre-talk Speaker Checklist...

1. Contact the church (+ local debt centre)

The church leader/ contact would love to hear from you, and there are a few things you might want to chat with them about. You can run through practical arrangements for the day - from the timings of the service and the amount of time you have for your talk, to whether there is parking at the church. It is also worth checking that the church contact understands the structure of the talk, and is okay with the type of Life Changer ask you are planning to do. Apart from anything else a quick chat will help get the church excited to hear what you have to say.

It is also often really helpful to contact the local Debt Centre before your talk. Enter the postcode of the church into the bar at the top right of the main <u>CAP website</u>. This will let you see if the church is covered by any local centres. Get in touch with the centre for local facts, figures and stories. These can really enhance your talk.

2. Download digital resources

You're probably very aware of the range of resources available on the speaker team website. These are there so we can make delivering a talk as easy as possible for you. We update these occasionally so do check you have the most recent versions of these files downloaded:

- Face-to-Face Church Talk Guidance (found under 'Extra Talk Resources' tab)
- The latest church talk framework (found under CAP Sunday/General or relevant Launch Talk tab)
- Relevant Client Story Video (found alongside the framework)
- The current Life changer Ask (found under the 'Life Changer Ask' tab)

3. Order physical resources (if needed)

We send out physical resources to help make your talks even more effective. If you need any more of any of these, please feel free to email speakers@capuk.org to let us know what you need.

Click <u>HERE</u> for the *physical resource checklist* and <u>HERE</u> to see how many of each we recommend for a given size of church.
