

## Changes to buy-now pay-later

The FCA has rolled out new measures to help those affected by COVID-19. To access this help, you will need to speak to your creditor.

[From FCA website]

### **Buy-now pay-later**

If you are facing temporary payment difficulties because of coronavirus, you can ask for a freeze on repayments to your buy-now-pay-later agreements for three months.

If you have a buy-now-pay-later agreement and you are within a promotional period, your lender should extend the promotional period by the length of the freeze period.

During a promotional period, you do not have to make repayments each month but will be charged interest on any balance you have not paid back by the end of that period.
